

## What Clarity Looks Like Now

Cancer has a way of wiping the slate clean - of helping you see life with sharper focus.

What matters most today?

---

---

---

---

What priorities have shifted?

---

---

---

---

What relationships feel more meaningful?

---

---

---

---

What no longer takes up space in your mind?

---

---

---

---

How do you want to spend your energy and your time?

---

---

---

---

This is a space for heart-truths. The kind of clarity you earn only by walking through the storm.
